FITTING INSTRUCTIONS

- **It is advisable to support the engine with a jack and block of wood/plastic as shown in picture 1 to prevent any engine movement when the original engine bolts are loosened/removed (do not use excessive lifting forces as damage can occur).**

Off side (right side as you sit on the motorcycle)

- Remove the frame tube cover and remove the bolt arrowed in **picture 2**.
- Remove the bolt arrowed in **picture 3**.
- Offer the right-hand side adventure bar (**item 5**) into position as shown in **picture 4**.
- Engage one of the longer bolts (**item 4**) through the front mount and into the engine-mount (do not fully tighten at this stage).
- Engage one of the shorter bolts (**item 2**) through the rear mount and into the engine-mount (do not fully tighten at this stage).
- Tighten both bolts ensuring no parts of the adventure bars contact any motorcycle parts.
- Fit the bolt covers (**item 3**) into the bolt heads.

Near side (left side as you sit on the motorcycle)

- Remove the frame tube cover and remove the bolt arrowed in **picture 5**.
- Remove the bolt arrowed in **picture 6**.
- Offer the right-hand side adventure bar (**item 1**) into position as shown in the **top picture**.
- Engage one of the longer bolts (**item 4**) through the front mount and into the engine-mount (do not fully tighten at this stage).
- Engage one of the shorter bolts (**item 2**) through the rear mount and into the engine-mount (do not fully tighten at this stage).
- Tighten both bolts ensuring no parts of the adventure bars contact any motorcycle parts.
- Fit the bolt covers (**item 3**) into the bolt heads.
- **Before riding, please recheck tightness of all bolts, and the operation of the motorcycle at full lock in both directions.**

CONSUMER NOTICE

The catalogue description and any exhibition of samples are only broad indications of the Products and R&G may make design changes which do not diminish their performance or visual appeal and supplying them in such state shall conform to the order. The Buyer acknowledges no representation or warranty (other than as to title) has been given or will apply to the Products other than those in R&G's order or confirmation and the Buyer confirms it has chosen the Products as being of merchantable quality and suitable for its particular purposes. Where R&G fits the Products or undertakes other services it shall exercise reasonable skill and care and rectify any fault free of charge unless the workmanship has been disturbed. The Buyer is responsible for ensuring that the warranty on the motorcycle is not affected by the fitting of the Products. On return of any defective Products R&G shall at its option either supply a replacement or refund the purchase money but shall not be liable if the Products have been modified or used or maintained otherwise than in accordance with R&G's or manufacturer's instructions and good engineering practice or if the defect arises from accident or neglect. Other than identified above and subject to R&G not limiting its liability for causing death and personal injury, it shall not be liable for indirect or consequential loss and otherwise its liability shall be limited to the amounts paid by the Buyer for the Products or the fitting or service concerned. These terms do not affect the Buyer's statutory rights.

NOTICE DE MONTAGE

- **Il est conseillé de soutenir le moteur avec un cric et un bloc de bois / plastique comme indiqué sur la photo 1 pour éviter tout mouvement du moteur lorsque les boulons d'origine du moteur sont desserrés / retirés (ne pas utiliser de forces de levage excessives car des dommages peuvent survenir).**

Côté droit (lorsqu'on est assis sur la moto)

- Retirez le couvercle du tube de cadre et retirez le boulon indiqué sur la photo 2.
- Retirez le boulon indiqué sur la photo 3.
- Mettez en place la barre aventure côté droit (article 5) comme indiqué sur la photo 4.
- Engagez l'un des boulons les plus longs (article 4) dans le support avant et dans le support moteur (ne serrez pas complètement à ce stade).
- Engagez l'un des boulons les plus courts (article 2) dans le support arrière et dans le support moteur (ne serrez pas complètement à ce stade).
- Serrez les deux boulons en vous assurant qu'aucune partie des barres aventure n'entre en contact avec les pièces de la moto.
- Monter les couvercles de boulons (article 3) sur les têtes de boulons.

Côté gauche (lorsqu'on est assis sur la moto)

- Retirez le couvercle du tube du cadre et retirez le boulon indiqué sur la photo 5.
- Retirez le boulon indiqué sur la photo 6.
- Présentez la barre aventure côté droit (article 1) en position comme indiqué sur la photo du haut.
- Engagez l'un des boulons les plus longs (article 4) dans le support avant et dans le support moteur (ne serrez pas complètement à ce stade).
- Engagez l'un des boulons les plus courts (article 2) dans le support arrière et dans le support moteur (ne serrez pas complètement à ce stade).
- Serrez les deux boulons en vous assurant qu'aucune partie des barres aventure n'entre en contact avec les pièces de la moto.
- Montez les couvercles de boulons (article 3) sur les têtes de boulons.
- Avant de rouler, veuillez vérifier le serrage de tous les boulons et le fonctionnement de la moto à verrouillage complet dans les deux sens.
